by Cornerstone Homes

"Livable Art # 49": is a presentation of modern design in a warm, family-home context. You are treated to an intricate interplay of interior wood planes through the ceilings and walls that provide a counterpoint to the spectacular array of the home's walls of glass. The result is views from everywhere within this open plan. This 4 bedroom art-piece also features a walk-out sculpture garden off its lower level and a series of cascading ponds at its entry, roof decks, balconies and loads of other outdoor get-away spaces to enjoy. It's an original!

6336 finished sq. ft.

**2746 Spruce Meadow, Broomfield
